

Electronic Document Review (EDR)

Accelerate Discovery

Electronic Document Review (EDR) enables agencies to speed the discovery process. It uses the latest in technology to search, sort and identify responsive content in large volumes of emails, attachments and documents.

Integrating directly with ATIPXpress®, EDR enables users to quickly filter, deduplicate, rank and sort documents then move the results into the main system for redaction and processing.

Features to Support Your Mission:

Email Containment

Consolidate email threads and attachments to speed up review

Content Management

Rank, categorize and identify relevant content by concept for easy review

Email & Document De-Duplication

Eliminate duplicate emails and documents to reduce clutter and save time

Advanced Search

Keyword search quickly uncovers responsive terms in large document sets

Audit Logs

Automatically create audit logs to ensure compliance and support legal actions

Document Comparison

Perform side-by-side document review to certify accuracy

A 21st Century Approach to Open Government

Speed Processing

Reduce discovery time by up to 70% with automated review

Promote Transparency

Document all actions in concise audit logs to support transparency

Optimize Resources

Utilize technology to improve performance and reduce the burden on staff

Enhanced Reporting

Analyze a variety of reports detailing data source statistics

EDR brings document review into the 21st Century. It transforms the way agencies manage the ATIP process.

ATIPXpress®

ATIPXpress® transforms the way organizations manage Access to Information and Privacy Act (ATIP) requests. ATIPXpress® digitizes and automates the full lifecycle of ATIP from inquiry to delivery and retention. That's why it's the leading eATIP solution in Canada.

AINS

AINS® is a leading global provider of cloud-based, adaptive case management solutions. Since 1988, AINS has empowered more than 380 organizations in 45 countries to rethink how they work, develop and deploy new technology. AINS innovative, agile software and services spur digital transformation across the enterprise.
